

Family Online Photo Permission
2019.2020

Oostburg Christian School frequently posts photos of our students on our website as well as on social media. This a wonderful tool to make sure you know about important events happening at OCS. This also lets many other families know about the blessings of our school. We also like to show our students "growing" as God's children in their classrooms and in school activities. While we want to share these blessings from God, we also want to protect the privacy of our families. Pictures used online do not include any student's name or other personal identification. Permission is assumed unless you tell us otherwise. Please indicate below if you do not give permission for pictures of your children to be used as part of our social media in either print or electronically.

_____ *We DO NOT* give permission to Oostburg Christian School to use pictures of our child/children in printed form.

_____ *We DO NOT* give permission to Oostburg Christian School to use pictures of our child/children online.

PLEASE PRINT
